

SARAVANAN R

AI ENGINEER

Karaikudi | r.saravanan1282005@gmail.com | www.code-x.me | +91 9360899117

SUMMARY

HTML, CSS, JavaScript, and frameworks such as React and Bootstrap. Proven ability to collaborate effectively with development teams to implement front-end features and optimise website performance. Experienced in developing cross-platform mobile applications with Flutter and Dart, enhancing UI/UX and integrating backend systems. Proficient in Python, AI engineering, Node.js, SQL

EDUCATION --- 2023 - 2027

Mount Zion College of Engineering and Technology Pudukkottai

Bachelor of Technology Artificial Intelligence and Data Science

EXPERIENCE

Web developer - Magnion chennai

Mar 2025 - Aug 2025

- Assisted in developing and maintaining responsive web applications using HTML, CSS, JavaScript, and frameworks like React/Bootstrap. Collaborated with the development team to implement front-end features and fix bugs.

Backend Developer - pass science work, IIT madras

Dec 2025 - JUN 2026

- I have developed a language platform named UPI Language, which enables direct hardware execution of mathematical operations. It is designed to support multiple regional languages and is being developed as part of IIT research.

PROJECTS

MZ MarkDigitizer - MZCET

- Developed an OCR-based marksheet digitization system that automatically extracts student details and marks from scanned documents and converts them into structured digital data via a server.

AquaGuard – Smart Water Tank Monitoring System - MZCET

- Designed an IoT-based water tank monitoring system using NodeMCU to automate motor control and provide real-time monitoring of several tanks through a Node.js dashboard.

Sim-Vital- MZCET

- Developed an ESP32-based CPR training system with integrated sensors to monitor compression, airflow, and CO₂, featuring a real-time multi-parameter ICU-style monitoring interface.

Step Assist - Smart IoT Crutch - MZCET

- Developed a smart IoT crutch with real-time fall detection, step counting, gait analysis, and voice assistance through a mobile application for elderly users.

EVAL AI - MZCET

- Developed an AI-powered answer sheet evaluation system using the Claude API to automate assessment.

SKILLS

- | | | |
|--------------------|------------------|------------------------|
| • Python developer | • JavaScript | • Full Stack Developer |
| • Flutter | • AI engineer | • Node.js |
| • IOT | • Java developer | • Microsoft SQL |
